

Nights Like These

DRAIN

The energy I feed, you feed, we feel alive
Just for tonight
No thoughts at all, I feel no hurt, I feel no pain
Just for today

No fucking rules
They can't stop us all but I know they're gonna try
Nobody gives a fuck about what they say 'cause I'm the boss tonight
We'll make our own fun our own way, that's never going to change
But when the music is over the memory remains

And when I scream I want to hear it ring forever
I'll give you something to remember
From the greatest days of my fucking life that we live right now
No words but I'll try somehow

'Cause it's nights like these that I've been living for
I never thought I'd make it this far
'Cause it's nights like these that I've been searching for
And I'm finally home

Feel no hurt
Feel no pain
