

# Nothing but Love

DRAIN

I never thought I'd see people take success so personally  
Says more about you than it does about me

There's nothing I can do, 'cause if I lived like you, I'd hate  
me too  
You've never felt this comfortable

There's room for all of us to win  
Just worry about yourself and stop watching my fucking pockets  
All love, all love, nothing but love from me  
You can't stop me from anything

You don't have to like it, but that doesn't mean it's not real  
You can hate from the sidelines, but I'll never know how that f  
eels

There's nothing I can do, 'cause if I lived like you, I'd hate  
me too  
You've never felt this comfortable

There's room for all of us to win  
Just worry about yourself and stop watching my fucking pockets  
All love, all love, nothing but love from me  
You can't stop me from anything

There's room for all of us to win  
There's room for everyone  
There's room for all of us to win  
I got nothing but love  
But love  
But love  
But love
