

## Until Next Time...

**DRAIN**

When I think of all those times  
I've wasted having good times  
I know I'd do it all again

And it's been so real, now it's time to disappear  
All good things gotta end  
Until we meet again

Take care of yourself, keep your head up high  
Give your love to all of your friends while there's still some  
time  
No room for fakes and snakes  
No room for attitudes  
Life's what you make of it, and I wish the best of luck to you

So remember  
Out there somewhere, you've got a friend  
And you'll never walk alone again

It's been so real, now it's time to disappear  
To the times we won't forget  
Until we meet again

Take care of yourself, keep your head up high  
Give your love to all of your friends while there's still some  
time  
No room for fakes and snakes  
No room for attitudes  
Life's what you make of it, and I wish the best of luck to you

You only get one shot, so give 'em hell  
When you die, leave a story to tell  
One full of love  
And a couple mistakes  
And all the laughs we had in between  
Until we meet again

Until next time  
Take care, be well  
DRAIN is your friend
