

# Dandelion

Drake Bell

A little dandelion, it takes so long to grow it  
But just a moment to pick it up and blow it away  
A little candle light, beautiful and glowing  
Just a flame to show me where I'm going today  
Help me light the way

I won't say I was perfect, I deserved it  
Please just hear me out

Can I come see you?  
Can I come back to the place where everything was working out?  
Can I come see you?  
I want to come home  
Won't you let me come home?

You broke my heart and you put it in a locket  
I broke your heart, put the pieces in my pocket to save for a rainy day  
Please forgive me for the way that I was broken  
I never meant for you to feel a single bit of my pain  
Wish I could take it away

I won't say I was perfect, I deserved it  
Please just hear me out

Can I come see you?  
Can I come back to the place where everything was working out?  
Can I come see you?  
I want to come home  
Won't you let me come home?

Can I come home?  
Can I come home?  
I've got to come home  
I want to come home  
To you  
Can I come see you?  
Can I come back to the place where everything was working out?

Can I come see you?  
(I was running but now I'm coming back)  
Can I come back to the place where everything was working out?  
Can I come see you?  
(I was broken but I put it all together now)  
I want to come home  
Won't you let me come home?

Can I come see you?  
Can I come back to the place where everything was working out?  
Can I come see you?  
I want to come home

Won't you let me come home?  
Oh I need to come home
