

Out There

Drake Bell

Wore a suit today
I'm almost ready
On the news they say
The Dow is steady
Got a picture inside my mind
Of a place and time

Took a morning train
Opened up the paper
Trying to find the name
Of a total stranger
Now I'm reading between the lines
Looking for a sign

Out there
There's someone just as crazy
Someone who is waiting for somebody like me
Somewhere out there
There's someone just as scared
Searching for that someone who is just as out there
As me
As me

Wish I had a map
To find my direction
So I don't lose track
And miss my connection
I still don't know who you are
But I've come so far

Out there
There's someone just as crazy
Someone who is waiting for somebody like me
Somewhere out there
There's someone just as scared
Searching for that someone who is just as out there

I can hardly wait

Out there
There's someone just as crazy
Someone who is waiting for somebody like me
Somewhere out there
There's someone just as scared
Searching for that someone who is just as out there
As me
As me
As me
As me
(As me.)
As me
(As me.)
As me
(As me.)
As me
(As me.)
As me

(As me.)

As me

(As me.)
