

Vertigo

Drake Bell

Satellite
Everybody's watching
No one hides
Everybody's watching

Wanna get away
Find another place
Outer space
How on Earth to get there?

Time to elevate
As we celebrate

Let's escape into the sound
Fly away and drown into the crowd
Oh oh, it's the vertigo
You gotta let it go
Let it go, let it go
Vertigo

Follow me into the lights
Take another trip into the night
Oh oh, it's the vertigo
You gotta let it go
Let it go, let it go
Vertigo

Here we are
What to call our new home?
Falling stars
Colonize the dance floor

Always trying to be
Such a mystery

Satellite
Everybody's watching

Time to elevate
As we celebrate

Let's escape into the sound
Fly away and drown into the crowd
Oh oh, it's the vertigo
You gotta let it go
Let it go, let it go
Vertigo

Follow me into the lights
Take another trip into the night
Oh oh, it's the vertigo
You gotta let it go
Let it go, let it go
Vertigo

Oh oh, vertigo
Oh oh, vertigo

Oh oh, it's the vertigo
It's the vertigo, it's the vertigo
It's the vertigo, it's the vertigo
Vertigo

Let's escape into the sound
Fly away and drown into the crowd
Oh oh, it's the vertigo
You gotta let it go
Let it go, let it go
Vertigo

Follow me into the lights
Take another trip into the night
Oh oh, it's the vertigo
You gotta let it go
Let it go, let it go
