

# Waiting To Say

Drake Bell

Take me in  
Love is rare  
All the memories we share  
But don't forget I'm there  
Watching you from the fall to the summer's open air  
I'm trusting you with all I know  
You know of all my secrets, but there's one you don't

I've been waiting longer than I've ever known  
Just to say the words I want to  
I'd like to go further down this winding road  
So it's time you know I love you

I hope our time never ends as we're lying here in bed  
Remember what I said  
Don't forget where we've been and just where it all began  
I'm trusting you with all I know  
You know of all my secrets, but there's one you don't

I've been waiting longer than I've ever known  
Just to say the words I want to  
I'd like to go further down this winding road  
So it's time you know I love you

I've been waiting longer than I've ever known  
Just to say the words I want to  
I'd like to go further down this winding road  
So it's time to say "I love you"  
Down this winding road 'cause it's time to say "I love you"  
Down this winding road 'cause it's time to say "I love you"
