

# Tequila Mockingbird

Drake White

You never met a sweeter child  
She wouldn't hurt a fly  
She calls her mama every morning  
Talks to Jesus every night

She said I never been across any borders  
So we drove down to Mexico  
In a bikini with a drink in her hand  
I saw a side to her that I've never known

She's got a stiff left hook  
She's got a mouth on her too  
She knows those words no preacher mans ever heard  
Bring on the salt and lime  
We'll have a real good time  
Me and my tequila mockingbird  
My tequila mockingbird

I never knew she could dance like that  
She could make a grown man blush  
Let's find that ocean and lose these clothes  
She said I got a thirst  
A thirst for love  
Yeah

She's got a stiff left hook  
She's got a mouth on her too  
She knows those words no preacher mans ever heard  
Bring on the salt and lime  
We'll have a real good time  
Me and my tequila mockingbird  
My tequila mockingbird

I like it when she's behaving badly  
She says bring it on  
And I say gladly  
Out of the shadows like old Boo Radley  
Here she comes  
Yeah

She's got a stiff left hook  
She's got a mouth on her too  
She knows those words no preacher mans ever heard  
Bring on the salt and lime  
We'll have a real good time  
Me and my tequila mockingbird  
Oh my tequila mockingbird  
Yes my tequila  
Oh my tequila mockingbird
