

# We Made It (Freestyle)

Drake

The only thing I'm seein' I'd like to put an amend on, perhaps a little more room here for the fixins, you know what I'm talkin' about? Oh, we gon' have a lot of fixins. We gonna have so many fuckin' fixins up in this motherfucker, this shit gon' go through the roof. Got damn I'm shittin' gold these days

Nigga we made it, hey  
We made it  
Nigga we made it, hey  
Damn, we made it  
Nigga we made it, hey  
We made it, aye  
Nigga we made it, hey  
We made it

She said she workin' for Walgreens but not in the store, at the head office  
The head was so good it makes sense why you work at the head office  
In 2007 I sat in the lobby of Motown and waited  
Now I walk into the buildin' and go off like "Nigga we made it!"  
When I walk through these halls, man this beat should be playin'  
I just came to make sure you not missin' no payments  
Now turn this shit down while I issue my statement  
It needed a moment of silence, nigga we made it!  
You fly out your lady, I fly out my latest  
Bitches can't front on the kid anymore, man they know what my name is  
And if by chance she don't know who I am, she just know that I'm famous  
Imma just hand her a business card and say "Nigga we made it!"  
And she gotta come through the hotel and pop it off for me  
Then she gon' text her best friend like "Girl he got some good dick and money"  
Her friend hit her back like "I know that already, that nigga's amazin'"  
Then I send a message to both of they asses like "Nigga we made it!"

Kinda makes me wonder why the hell so many people are tryna tell me to slow down. Seems like motherfuckers should be shuttin' the hell up and enjoyin' the show

Hey  
We made it  
Nigga we made it, hey  
Damn, we made it  
Nigga we made it, hey  
We made it, aye  
Nigga we made it, hey  
We made it

If they with me, just know that they wit' it and 'bout it  
If I said it, I meant it, it's no way around it  
OVO, Reps Up, and P. Reign is next up watch Gway go crazy  
When Baka came home for the holidays, I was like "Nigga we made it!"  
And all of those lawyer fees, nigga I paid it  
My family get all of my loyalty, all of my patience  
My life for your life, man I wouldn't trade it  
I would just look at you dead in yo' face and say "Nigga we made it!"  
I swear that we made it, sell out that ting, I'm the king in Jamaica  
But I've been on that wave, that's why this year I tell yah, I don't need no favors

(Damn, Soulja Boy stunt on them haters)  
And my resolution for New Years is nigga we made it!  
You don't know how long I waited, I coulda been waitin' on tables, my karma's amazin'  
I'm out in the Caymans, rented a 12-bedroom house just to sleep all the women we came with  
That's ignorant, ain't it? Sometimes I question myself when I think 'bout the pictures I painted  
Then I pick up my brush and I sign at the bottom like "Nigga we made it!"

Hey  
We made it  
Nigga we made it, hey  
Damn, we made it  
Nigga we made it, hey  
We made it, aye  
Nigga we made it, hey  
We made it

I remember standing in the hood  
Tellin' my partner, and my momma, everything gonna be all good  
Nigga we made it! Damn, I'm up in Las Vegas  
Damn, I never was supposed to have shit, now my life is lavish  
Every night, fuckin' a bad bitch, nigga we made it!  
Coppin' a Lambo, cash, the Bentley, 2 times I crashed  
Ha, nigga we made it!  
Look at them niggas' faces, them niggas, they hate it  
I look a nigga in his face and say "Nigga we made it!"  
Soulja Boy stunt on them haters  
And these days I don't need no favors  
Nigga we made it!
