First off I don't play fair, bro explain that  
Two two three shells knockin' off Ray Bans  
Find out where you stay fam, it's a stakeout

Niggas on crash tryna swerve in my lane with that bucket  
Run out of gas tryna keep up in this hundred  
I skipped crawlin' and walkin', hit the game and got to bustin'  
Fumbled on fourth, man I should've just punted  
Now I'm like fuck it, four five dirty bird, I'm duckin'  
22nd thuggin', dope fiend riddles and budgets  
You on these socials like your full name is Deontay Wilder  
Or somethin'  
Make sure your bitch ass that tough when I see you up in public

Your energy don't ever stay there  
That chopper talkin' tough shit  
And we been hustlin' since the daycare

From in the field, you shouldn't play there  
I ain't here to hate on no nigga, fuck a bitch by the fake hair  
And I been makin' enemies, I don't make peers  
Got it out the mud, got my name cleared  
And it's still free Foreign, free Lil Snoopy, why they ain't here?  
Hundred round drum is when they change on us  
Youngin never leave the house without his thang on him  
Hood politicians puttin' blame on him  
Tell them niggas I ain't got no fame for 'em  
Ain't no new recruits, ain't got no chains for 'em  
Keep it real with all my bitches, ain't got no game for 'em  
Pull up on my exes, all my chains on  
Hop out with that chopper, get him cranked on, yeah
