

I'm The Reason

Drakeo The Ruler

Lately all I could think about is violence
I don't know why you even think about fighting me
If the devil wears prada it's most likely me
If he got a million views he's likely cheating
I'm from Los Angeles California
I make niggas wanna pull up in them foreigners
I make all these niggas baby mommas horny
You walk away from her she's telling me "come over"

I made all you niggas wanna get some money
I made all you niggas go and get a foreign
I'm the reason you put diamonds in your 'rollie
Don't gotta like me but as long as niggas know it

I made all you niggas wanna get some money
I made all you niggas go and get a foreign
I'm the reason you put diamonds in your rollie
Don't gotta like me but as long as niggas know it

As long as niggas know its real
VV's hit hard as Holyfield
I brought the dawn out to show and tell
A Whatsapp call I know that's careless
A C Class don't even show that Benz
Ben Frank I don't know your friends
We just made him do the robo dance
That's for pullin' up in cholo pants

I made all you niggas wanna get some money
I made all you niggas go and get a foreign
I'm the reason you put diamonds in your rollie
Don't gotta like me but as long as niggas know it

I made all you niggas wanna get some money
I made all you niggas go and get a foreign
I'm the reason you put diamonds in your rollie
Don't gotta like me but as long as niggas know it
