DRAM

Alright, woah, oh
You too, baby

Girl, how did we get under the mistletoe?
But if I kissed your lips, how far would this here go?
Now you can give me gift, underneath the tree
But the greatest gift is if you spend the night with me

I'll be makin' love this Christmas, love this Christmas
Love this Christmas, to you
Makin' love this Christmas, love this Christmas
Love this Christmas, to you

Protect the one that I'll [?] from me
How sweet you touch my heart
I want to touch your body too
So won't you let me come and do
Everything you deserve
'Cause when it's cold outside
Baby, you light my fire

'Cause I'll be makin' love this Christmas, love this Christmas
Love this Christmas, to you
Makin' love this Christmas, love this Christmas
Love this Christmas, to you
