

A Mother's Love

DRAM

Think about you every day
I had a dream about you yesterday
I miss you in so many ways
And I'm never gonna be the same
And it's never gonna be okay no matter what our people say
I would've answered every single call
Every text, FaceTime, and all the things I wanna say to you
I'll say right now, but I'm glad you knew

That I love you so much
And I miss you so much
And I wish you were still here
'Cause there's nothing like a mother's love
I love you so much
And I miss you so much
And I'm glad I made you proud
And I'll always be my mother's son

I can't keep a dry eye
As I write this down, now matter how I hard I try
To think about the good times
I smile for a second and then I cry
I'm never gonna see you again
I know you're watchin' down, but I need you right here
I'd give everything I have to get you back

'Cause I love you so much
And I miss you so much
And I wish you were still here
'Cause there's nothing like a mother's love
I love you so much
And I miss you so much
And I'm so glad I made you proud of me
And I'll always be my mother's son

Like every, every
Every wakin' moment, it just, it just hits like
Like, like, like
Like a migraine, like a sharp pain
But it's not in the head, it's, like, in the whole body, it just
I feel, I feel weak at times, but, like
I, I can't believe that shit, man, like
Damn, damn
Ayy, ayo, umm
