

Temperature rising  
When I look in your eyes and  
It feels so inviting  
You're someone I can confide in  
You're the perfect demonstration  
Of how to have a conversation  
When you're in sacred company  
I can tell that you fuck with me  
That's why I don't get jealous  
I can tell how you feel  
I can tell that you fuck with me  
Heart chakra open  
Know that it's real

I can tell that you fuck with me  
Yes I, yes I, yes I know  
Feelings  
Feelings  
Mutual  
I can tell that you fuck with me

Let me be clear, baby  
Girl I just had put on my favorite cologne  
Cause I know you'll be here  
With the hopes of gettin' it on  
Off of my scent alone  
That's an understatement (oh)  
That's an understatement (oh)  
That's an understatement (oh)  
What I'm saying I ain't playing til bout 10 in the morning  
And I already know that the feelings mutual  
But just like a flower you let it grow  
When it start to blossom then it show

Sweet as, sweet as the fruit that fell far from the tree  
I want a great big bite as a treat  
How could a love this good be free  
That's an understatement  
That's an understatement  
You ain't even gotta say it  
Know it's love that were making

I don't mind  
I don't mind  
I don't mind  
If you have some time with me  
Speak your mind  
You know what to say to me  
I don't mind  
I don't mind  
I don't mind
