

Gotta Go

DRAM

When you gotta go you gotta go
More ways than one
When you gotta go you gotta go
Don't make me seem like I'm dumb

When you gotta go you gotta go
When you gotta go you gotta go
When you gotta go you gotta go
When you gotta go you gotta go

You know that feeling sometimes you gotta leave from your situa
tion
Before you self-destruct and implode on this nation
For real I wanted it to work but sometimes you can't have what
you want
Still waiting on you to get the notion
Its better off in motion because
When you gotta go you gotta go
More ways than one
When you gotta go you gotta go
Not sayin this just for fun

When you gotta go you gotta go
When you gotta go you gotta go
When you gotta go you gotta go
When you gotta go you gotta go

Swear I need to leave away from here
Somewhere long as fuck away from here
Got get myself up outta here
I gotta go I gotta go
