

Soulmate

DRAM

I am feeling empty and numb
All she left was her crumbs
I am tryna figure out something
Is she the reason that a nigga give no fucks like a nun
I mean
I am feeling cold
Feeling like she took my soul
Like a woman that be sliding down the pole
Or the first time I copped a little gold
I should micro dosed it
Express my love but I should of never post it
You know how them hoes get
They fluctuate like weight
Even if the sex is great
Dawg I know you can relate
Cause my ex is my escape
It's easy cause she know the dick great
But we been down that path she can be my soulmate
She can be my soulmate
Yeah I miss the way that skin feel when she exfoliate
And the way that booty always kept a nigga up late
Shit nigga maybe she is my soulmate

It's like I was made for you
And you were made for me too
And it's more than the sex right now
Yeah it's more than the sex right now
And it feels like our soul is tangling
That's why we always together
And it's more than the sex right now
It's more than the sex right now

Fucking bitches is overrated
Cause that shit is always complicated
She wants my heart but it's vacated
But that's the role that she created
Now our love is antiquated
And you hate it
Cause you betted on me like Vegas
Once we get it in
The aftermath is outrageous
Because you strong holding on
Baby girl your courageous
You told your girls I'm a fuck boy
Then you come fuck the boy
You might be Helene the Troy
With brains like Tolstoy
Sweet in the streets
But a freak in the sheets
Only talk nasty when you talking to me

I know you not with no more
But so what
I want to go back to being all about us
Cause we both know that we still in love
Every time we touch
Is heart to heart

Soul to soul
Skin to skin
Again and again
On and on
Heart to heart
Soul to soul
Skin to skin
Again and again
On and on

It's like I was made for you
And you were made for me too
And it's more than the sex right now
Yeah it's more than the sex right now
And it feels like our soul is tangling
That's why we always together
And it's more than the sex right now
It's more than the sex right now
