

# Summer Nights

DRAM

Know I'm saying  
Under the stars and shit  
It's real breezy outside  
The leaves just kinda been whispering and shit

I could spend a summer night with you  
Looking at the moon through the sunroof  
We can do whatever you want to  
Let me know if I should come through  
I be on the way 'cause I could  
Spend a summer night with you  
Put that dress on that I like though  
I just made a left at the light post  
From Atlanta to the Eiffel  
We could make moves, I could  
Spend a summer night with you  
Feeling special we don't do the dress codes  
CLS though baby give me besos  
What it's made for, tell me what it take though  
In the A, might skate to the Bay though  
Lake Merritt I'm a player its inherited  
Fucking with you its apparent you aware of it  
Tight dress girl I love the way you wearing it  
All that confidence I love the way you carry it  
Green box kicks that's a bad bitch  
I ain't average you ain't never had this  
Coulda bought three Mac's for this jacket  
I love the way you matching my fashion I'm asking  
Night time breeze I don't wanna leave  
Sip a little drink smoke a little weed  
What you wan' do what's it gon be  
All night long  
I could spend a summer night with you  
Looking at the moon through the sunroof  
We can do whatever you want to  
Let me know if I should come through  
I be on the way 'cause I could  
Spend a summer night with you  
Put that dress on that I like though  
I just made a left at the light post  
From Atlanta to the Eiffel  
We could make moves, I could  
Spend a summer night with you

What a coinkydink  
We met at the 4th of July thing  
And it's been fireworks ever since  
You put that thing on me  
Every now and again I get another hit  
'Cause to me you're like a cool breeze  
And it's 'bout ninety degrees outside today  
But we can get this room much hotter  
We gon need a couple water bottles  
Babygirl I'm so unbothered  
'Cause I'm a summer baby born in August

Leo gang

I'm the king of the freaky shit

Just a lion in the jungle

If you like that wild shit then save my number  
You can call me all year winter, spring, summer

Night time breeze I don't wanna leave  
Sip a little drink smoke a little weed  
What you wan' do what's it gon be  
All night long

I could spend a summer night with you

I could spend a summer night with you
