

When She Call

DRAM

Yeah

Yeah

If you really love me, say it like you mean it

If you really love me, love me

She know how to call when she needs somethin'

She know what to do just to get it from me (Yeah)

Twist her like my weed, she gon' roll around

Keep it on the low, 'cause she won't fuck around

Anything you want from me, baby

I love it when you cum for me, darlin'

I can make you scream with no arguin'

And I can make you cream where your pantyhose is

She just love my weed 'cause she a dope fiend

You just know I hate because she post me

Ass so fat, had to walk around

Why you playin' games? Got me runnin' around

She started off as a crush, now we live together

I can't see myself with no one else, don't want nothin' else

Don't want no sneak, don't want no creep, don't want no side piece

I don't stick around, I dick her down and I leave (Leave)

Put a smile on my face, girl (When she call)

You know I be ridin' on the wave, girl (When she call)

I'ma fuck you good, take you 'round the world (When she call)

She just put her phone on do not disturb (When she call)

Yeah, pussy so good, had to run it back

How you gon' put it on the field and I play running back?

Girl, you know your time was approaching

You got cut 'cause you was tryna play both teams

Anything you want from me, baby

I'ma volunteer, put a smile on your face

I've been loving you for years and it won't just go away

It's something that just won't change as long as you don't change

Let me grab my jeweler 'cause I'm skating

You let me hit and I know your homegirls hate me

I can make her bust with no safety

Ass like my pack 'cause it's cakey

And I would turn a one to a two for you

Got me gettin' back on my hustle like I used to do

How you be breakin' necks now, wow, buildin' up my love for you

I just love to smoke and joke, stroke and fuck on you

Seen you want my dreams, I am the sandman

Put your ass to sleep just like that Xanax

She gon' fuck with me because my turnaround

Girl, I love them pants, I'm like, "Turn around"

If you really love me, say it like you mean it

Fuck me like you need it, make me think you fiendin'

'Cause you really feel it and I'm really fiendin'

And we're smokin'
