

# Where's My Sunshine?

DRAM

Damn  
How did I end up here?  
Where, where did all my sunshine go?  
I used to be so fuckin' happy, you hear me?  
We used to be happy  
We did things that other people didn't see and  
I don't know, even when I do that now, it's just not, it's not  
the same  
You're not the same and I'm not the same  
And I'm, I'm just tryna figure out how the fuck I can get back  
And you won't help me
