

## WWYD? Part 2

DRAM

Ooh, ooh  
Ooh, hey

You feel  
I should let you know as I hold you close  
How you feel  
It's like something I can't describe  
Unless we can vibe  
One more time  
But because of current situations  
Sometimes, it causes complications  
'Cause you know that I make most of my dough on the moon

Baby, what would you do if the money was through and I'm down on my last?  
Tell me, what would you do if the money was through and I'm down on my last?  
Would you carry your ass to the next man?

But you already know that, you already know that I'm here, babe  
You already know that, you already know that I'm here  
For you, darling  
You already know that, you already know that I'm here  
You should already know that, already know that I'm here, babe

Ain't nobody else steppin' nowhere  
I'm takin' the full stride to you, girl  
And can't nobody make me feel the way  
That you do, so kudos to you, girl  
Ooh, and I need you to see me through  
Troubles may come  
There's gon' be ups and down because  
It happens to everyone  
And I need you to need me, too  
Not just because of what you think that's gon' come  
I hope my love is enough for you

Baby, what would you do if the money was through and I'm down on my last?  
Baby what would you do if the money was through and I'm down on my last?  
Would you carry your ass to the next man?

But you already know that, you already know that I'm here, babe  
You already know that (You already know that), you already know that I'm her  
e (You already know that I'm)  
(You already know that I'm here)  
For you, darling (Darling)  
You already know that, you already know that I'm here (Already know, babe)  
You should already know that, already know that I'm here, babe

Ooh, ooh  
Ooh, hey

You already know that, you already know that I'm here  
For you, darling  
Ooh, ooh  
Ooh  
Ooh, ooh  
Ooh, hey
