

Dreaming of me before

And who who
Who are you now?
You told everyone but me
I guess your new love is
I guess your new love is the one

I must of been born yesterday
My heart is changes its mind like a one way road
I'll go I'll never be
The girl of your dreams
I'm just the girl that you need
An I know your not dreaming of me anymore
Like you were
Dreaming of me before

And who who
Who are you now?
You told everyone but me
Who your new love is
I guess your new love is the one

I hope your new love is the
I guess your new love is the one

And I love you more then I've ever loved anyone
And I'd of died by your side giving love
I'll never be the girl of the dreams
I'm just the girl that you need
An I know your not dreaming of me anymore
Like you were dreaming of me before

And who who
Who are you now?
You told everyone but me
Who your new love is
I guess your new love is the one

I hope your new love is the
I guess your new love is the
