

Dance Without Me

DRAMA

Well, everything I've done has led me here
Here to this moment now
I was a lonely child
Where did you find the confidence
To shine this bright and true?
Don't know who I am
Don't know where I stand without you
I won't stand a chance
And everyone will

And everyone will dance without me
No, I won't stand a chance
And everyone will dance without me
And even if I give in
It'd take 15 years
And even if I let go
No, you'd never really know 'til I change

Never know your love 'til I break
Where did you find the confidence
To shine this bright?
Where did you find the confidence?

No, I won't stand a chance
And everyone will dance
Without me

Now tell me where you get your place from
Where you got your game from
Darling, don't you play me now
Got me out here in the crowd and
I'm takin' bows and
Give you respect when
You don't deserve this, 'serve this
You never worked for it, worked for it

And I won't stand a chance
And everyone will dance
And I won't stand a chance
And everyone will dance
I won't stand a chance
And everyone will dance, dance, dance
Without me
I won't stand a chance
And everyone will dance, dance, dance
Without me
I won't stand a chance
And everyone will dance
Without me
I won't stand a chance
And everyone will dance
Without me
Without me
