

Don't Hold Back

DRAMA

Don't hold back now
Got me where you want me now you're running
Got me where you
Don't hold back

Just tell me a reason for it all
Gimme a second before you call me
I'll tell all my friends I'm giving up
None of these bitches gon' keep you happy
And one by one one by one
You're gonna find our love is easy
Don't be greedy
One by one one by one
You're gonna see they're all deceiving

Don't hold back now
Got me where you want me now you're running
Got me where you
Don't hold back

It's only over if you let me down
Say it's over when I call you now
It's only over If you kick me out
Say it's over in the moment now
It's only over if you let me down
Say it's over when I call you now
It's only over If you kick me out
Say it's over in the moment now

Once in a lifetime
You find the right one
I'll never leave you if you look me in my eyes
You know I know it when you lie
No excuses don't deny it
Wanna show you this ecstasy is love

Don't hold back
Don't hold back now
Got me where you want me now you're running
Got me where you
Don't hold back

It's only over if you let me down
Say it's over when I call you now
It's only over If you kick me out
Say it's over in the moment now
It's only over if you let me down
Say it's over when I call you now
It's only over If you kick me out
Say it's over in the moment now
It's only over if you let me down
Say it's over when I call you now
It's only over If you kick me out
Say it's over in the moment now
