## DRAMA

I said I didn't need you  
I said your love it wasn't worth it  
And I would leave you

You always said I wasn't good enough  
And I believed you  
Sorry's to painful now  
It's too late for us  
Sorry's to...

But I still believe in magic  
I still believe in love  
I still believe that every day's another day  
To find someone  
With magic  
And with love  
I'm gonna wait and find someone  
With magic  
And with love  
I'm gonna wait and find someone

So what becomes of this  
Is this the end of us  
Is this the end of love  
I guess it's all that I got for now

Memories stacked on memories  
Of this and us and this and love  
An all I had was this  
Thought that I'd die with this

Don't don't  
I guess you'll live without my love  
I know you always had a thousand lives to live  
I guess you'll choose another life  
I bet you'll fall in love and find the perfect wife, tomorrow  
While I've been loving you  
I've been loving you

But I still believe in magic  
I still believe in love  
I still believe that every day's another day  
To find someone  
With magic  
And with love  
I'm gonna wait and find someone  
With magic  
And with love  
I'm gonna wait and find someone

And he'll be better than you  
And when he says he loves me I'll know that its true  
You said "I probably should have told you along time ago  
I didn't have a heart to love but, I didn't know. But you should still believe in magic"

But I still believe in magic

I still believe in love  
I still believe that every day's another day  
To find someone  
With magic  
And with love  
I'm gonna wait and find someone  
With magic  
And with love  
I'm gonna wait and find someone
