

# Nine One One

DRAMA

Remember the time  
You thought you was in love but you was taken  
And cut everybody off  
On the weekends just to sleep in  
And gave all you got  
To a love you thought would last  
Well if you survived that  
Then you'll survive this

I wanna be there with you now  
Don't you try  
Nothing I wouldn't try  
I wanna be there with you now  
Don't you try  
Nothing I wouldn't try  
I wanna be there with you now

And favors follow faster  
Than you can hand out  
And you stretch yourself thin  
Lose your mind, while everybody wins  
Well if you survived that  
Then you'll survive this

I wanna be there with you now  
Don't you try  
Nothing I wouldn't try  
I wanna be there with you now  
Don't you try  
Nothing I wouldn't try  
I wanna be there with you now  
I wanna be there with you now
