DRAMA

I remember when  
We used to wake up early  
And stay out late  
Those were the good days  
And everybody said our time it wouldn't last  
But I didn't care  
I was still there for you  
And now ignorance is bliss  
Don't you wish you never had to grow up  
And keep living like this  
And still believe in magic and white rabbits  
And miracles  
I still believe in love sight an impossible feeling  
Can you hear me now?

Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Meet me on the rooftops darling  
Rooftops darling  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof

Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof  
Cause I'm screaming your name  
And I'm cursing the day from the rooftops  
Meet me on the roof

Meet me on the rooftops, darling  
Meet me on the rooftops, darling
