

Safe House

DRAMA

Darling I was your safety home
There was no better call to make
I could of been
I could of been

But you always want
What you cannot have
You push me away
Just to beg for me back

Cuz you always want
What you cannot have
You push me away
Just to beg for me back

And darling I'm here for you
I could be here for you
We could be more than friends
There could be more to this
I could be

And I told you before
Don't abuse my love
Oh I'm here for you now
And if loving you were to die
I'd do anything to try

But you always want
What you cannot have
You push me away
Just to beg for me back

Cuz you always want
What you cannot have
You push me away
Just to beg for me back

And darling I'm here for you
I could be here for you
We could be more than friends
There could be more to this
I could be
