

# The Music

Drapht

It's the music,  
It's the music the music  
Well it's my music they use it everyday to survive..al  
I need to stay alive its my breath from the skies  
From highs to lows  
From rockin hyped shows  
Its my eyes when I cross roads,  
My arrow for the crossbow  
My everything, settling me down when I'm down  
It's the lettering, no better sound to be found  
I'm spellbound  
Surrounded by people  
Renowned for no crowns in this town we all stand equal  
People be fooled by pop-stars and cover bands  
Stop like cop cars, proceed with another plan,  
Standin tall for what I believe  
Guarantee I see it through to the end  
A leaver, I achieve my goals  
Retrieve the gold  
That rolls the red carpet  
For a man in the mirror not for a select market  
Start it, finish it diminish anything in my path  
Close to my heart  
A big part of drapht  
Is my music

It's the music,  
Giving you the lift you need  
It's the music,  
Only thing that set ya free,  
It's the music,  
It's the music,  
It's the music,  
It's the music  
It's the music  
The shit that can change ya life  
It's the music  
Putting me on stage tonight  
It's the music,  
It's the music,  
It's the music,  
It's the music the music

Gotta be dedicated whether ya hated or getting loved  
Whether you're rubbed up the wrong way  
Rated or getting shrugged by shoulders  
Holdin your own stones are thrown  
Enemies run with jealousy they hit close to home  
Rippin through bone, no hesitation  
Amazin,  
Now they tryin to pull all these rules and regulations  
I'm raisin the bar  
From dark to jazz,

Can't escape from drapht and dazz  
Like alkatraz,  
The last I have, it all in my long term view  
Never listen to superstition or wishin on horse shoes  
For fortune or luck, thunderstruck  
Tryin to reach the next level but you can't get up  
So just get down and dirty ya heard me right  
I be the brains and the muscle like a nerd that fights  
A suburban night  
With the bourban dry in my right hand  
My left supports the mic stand  
I'm doing this for my land

Feel free hear the music at the edge  
It's the music,  
Giving you the lift you need  
It's the music,  
Only thing that set ya free,  
It's the music,  
It's the music,  
It's the music,  
It's the music  
The shit that can change ya life  
It's the music  
Putting me on stage tonight  
It's the music,  
It's the music,  
It's the music,  
It's the music the music
