

All This Time

Drax Project

What's in your head?
Wish that I could see you thinking
Let me in
Is what you're saying what you're meaning?
I'm trying to make some sense
I'm over the suspense
But a part of me knows how this ends

'Cause after all this time
Got me feeling alive
And we could go all, all night
'Cause you know what we're like and
After all this time
Got me feeling alive
And we could go all, all night
'Cause you know what we're like
Yea, that's what we like

Is it all in my head? Yea
Wish that I could see it, show me that you mean in
Let me in, mmm
Though I don't want to lecture, or put you under pressure
I'm just trying to make some sense (trying to make some)
I'm over the suspense (I'm over the suspense)
But a part of me knows how this ends
I know

'Cause after all this time
Got me feeling alive
And we could go all, all night
'Cause you know what we're like and
After all this time
Got me feeling alive
And we could go all, all night
'Cause you know what we're like
Yea, that's what we like

That's what we like

'Cause after all this time
Got me feeling alive
And we could go all, all night
'Cause you know, 'cause you know
And after all this time
Got me feeling alive, and we could go all night
'Cause you know, 'cause you know

'Cause after all this time
Got me feeling alive
And we could go all, all night
'Cause you know what we're like and
After all this time
Got me feeling alive
And we could go all, all night
'Cause you know what we're like
Yea, that's what we like

That's what we like

That's what we like

'Cause you know what we're like
