

Disrespect

Drax Project

See you standing out over there
Know you through a friend of a friend
Didn't show up with your man, so
Think I'm gonna try this again

The way you look at me with the eyes
You're taking me away - paradise
I bet you by the end of the night, yeah
Gon' be hard to pretend

I can't steal your heart it's under high security
It's hard for me to say some things so I'd prefer to show you how I feel

I don't mean no disrespect
You look so good in that dress
Can I teach you how to dance
So I know what I'm missing
I don't mean no disrespect
Can I take you by the hand
Can I teach you how to dance
So you know what you're missing too?

Mmm

We don't have to take it too far, no
We could let our bodies just talk, yea
We don't have to think too hard, cause
It's coming naturally

I can't steal your heart it's under high security
It's hard for me to say some things so I'd prefer to show you how I feel

I don't mean no disrespect
You look so good in that dress
Can I teach you how to dance
So I know what I'm missing?
I don't mean no disrespect
Can I take you by the hand
Can I teach you how to dance
So you know what you're missing too?

So good in that dress
In that dress
Know what I'm missing too
In that dress yea
I don't mean no disrespect, no no yea can I take you by the hand?
So you know what you're missing too
