

When you call and I don't even answer  
Cos I know that this feeling won't last forever  
Ringing on in my head it echoes (echoes)

I can't think of you  
Any other way  
This wheel has sent me spinning  
Spinning far away

Cos when I spin the wheel  
Time and space stands still  
Take this chance on me  
Lets do something real

Cos when I spin the wheel  
Time and space stands still  
Take this chance on me  
Lets do something real

Waiting for you to call but nothing  
Seems to come  
And I'm left here waiting  
Empty room  
Blank walls  
Nothing at all

I can't think of you  
Any other way  
This wheel has sent me spinning  
Spinning far away

Cos when I spin the wheel time and space stands still  
Take this chance on me  
Lets do something real

Cos when I spin the wheel time and space stands still  
Take this chance on me  
Lets do something real

Something something something  
Something real

Something something something real

Cos when I spin the wheel time and space stands still  
Take this chance on me  
Lets do something real
