

# Relax

## Drax Project

Hey, what happened to you?  
You were my best friend, so content  
Hey, is it something 'bout me  
Did I kill the fun, say something dumb?

You used to lay on my chest  
Now you're all in your head  
Stressing over what I said  
Took it out of context  
You're just looking for a fight  
Saying things out of spite  
So I got some advice for ya

You just gotta learn to relax  
Gotta get off my back  
Nothing wrong with my intentions, uh  
You just gotta learn to relax  
You just gotta sit back  
Nothing wrong with imperfection

Hey, not tryna be mean  
I just need honesty  
Uh, it's fuckin with me, yea yea  
You know I played fair, I took care of you

You used to lay on my chest (lay on my chest)

Stressing over what I said (stressing over what I said)  
Took it out of context (stressing over what?)

Saying things out of spite

You just gotta learn to relax  
Gotta get off my back  
Nothing wrong with my intentions, uh  
You just gotta learn to relax  
You just gotta sit back  
Nothing wrong with imperfection

Don't worry I got lots of love to give  
No problems here so why're you acting weird?
