

## Second Chances

Drax Project

Need a few more second chances  
Just let me back in  
Just need a few more second chances

Mmhmm, oh yea  
I've been looking for the answers making angels in the ashes  
Missing all the things I never really thought would ever matter  
I know the odds are weighted against me but I'll take em  
To get through to you

Just need a few more second chances  
Just let me back in  
Don't send me packing  
I know how it seems, I'm not bad but I did some bad things  
Let me back in  
Just need a few more second chances

Sitting on my own staring at the phone  
Bottom off the shelf, did it to myself  
Know I need some help, listen  
Thought what you need - diamonds at your feet  
Off the broken glass, but the photographs still cut in half  
I know the odds are weighted against me but I'll take em (take em)  
To get back what I could have had  
Just need a few more second chances

Just need a few more second chances  
Let me back in (just let me back in)  
Send me packing  
Second chances

Just need a few more second chances  
Just let me back in  
Just let me back in  
Don't send me  
Don't send me packing  
Oh, I know how it seems, I'm not bad but I did some bad things  
Let me back in  
Just need a few more second chances (second chances)  
Just let me back in  
Oh, oh, oh  
Don't send me packing  
Oh, I know how it seems, I'm not bad but I did some bad things  
Let me back in  
Just need a few more second chances
