

Seemed Like Trouble

Drax Project

You've taken control of me
Let me go so I don't feel so hopelessly
Attached to the very thing I'm trying not to be
It's got me tied up but in some way
It's still comforting, I'm suffering 'till I can see

And I've been waiting
But the same shots over and over
Stop me from moving

Lately I've got into you
You've got my head stuck in this crazy loop
And you seem like trouble to me
So I left my door wide open intentionally

I might not have thought this through
But at this point I have got nothing else to lose
I've got to the limit and somehow seemed to push on through
This voice inside my head keeps me from running where I want to
be
It's plain to see that I need you

And I've been waiting
But the same shots over and over
Stop me from moving

And I've been waiting
But the same shots over and over
Stop me from moving

Lately I've got into you
You've got my head stuck in this crazy loop
And you seem like trouble to me
So I left my door wide open intentionally

Lately I've got into you
You've got my head stuck in this crazy loop
And you seem like trouble to me
So I left my door wide open intentionally
