

Anything you want  
Anything you need  
Gotta have you somewhere near me  
When the days are long  
But everything you got  
Would you give it all for me  
Cause I heard you want to get it all tonight  
But it got to feel right

I heard you came to get it  
Came here to get it all night  
I heard you came to get it  
Came here to get it alright  
I heard you came to get it  
Came here to get it all night  
But you don't want them to see it  
Maybe I'm just your sidebit

Tell me what you're thinking  
Or give me something  
Your silence kills me  
But I don't go reaching  
Taking shots to the body  
You keep reloading  
Tension rising  
But I ain't folding

Anything you want  
Anything you need  
Gotta have you somewhere near me  
When the days are long  
But everything you got  
Would you give it all for me  
Cause I heard you want to get it all tonight  
But it got to feel right

I heard you came to get it  
Came here to get it all night  
I heard you came to get it  
Came here to get it alright  
I heard you came to get it  
Came here to get it all night  
But you don't want them to see it  
Maybe I'm just your sidebit

I heard you came to get it  
All night, all night, oh  
I heard you came to get it all night  
But you don't want them to see it  
Maybe I'm just your sidebit

I heard you came to get it  
Came here to get it all night  
I heard you came to get it  
Came here to get it alright  
I heard you came to get it  
Came here to get it all night

But you don't want them to see it  
Maybe I'm just your sidebit

I heard you came to get it  
All night, all night, oh  
I head you came to get it all night  
But you don't want them to see it  
Maybe I'm just your sidebit
