

Time Getting Hard

Dread Mar I

So, when the time is gettin hard do you remember little children
That the love of Initi control and be your only way of salvation,
your only way of salvation.

This little jam is for all the children, all over the world
When the Babylon is gettin weaker every day
And you got to be wise, and fight to survive in a dis'ya time.

The time is getting so hard, the time is getting so hard, children
The time is getting so hard, the time is getting so hard.
So, when the time is getting hard do you remember little children
That the love of Initi control and be your only way of salvation,
your only way of salvation.

Walking down the road, you see the people soak of control
Strugellin, looting, and fighting and I'll go see the love
So children you are the people of the sunshine, you got to be strong,
trust yourself.

The time is getting so hard, the time is getting so hard, children
The time is getting so hard, the time is getting so hard.
So, when the time is getting hard do you remember little children
That the love of Initi control and be your only way of salvation,
your only way of salvation.
