

# Night Stalker

Dream Evil

June '84, the city of angels  
A serial killer is loose all over town  
Shows no remorse, has no compassion  
Raping and killing poor women while burgling their homes

Wasting no time, reached the point of no return  
If you're chosen, then you burn

Night Stalker, everyone's got to die  
He's gonna make them cry for their lives  
Night Stalker, taking them in the night  
Under Satanic might, the next one might be you

His childhood was bad from the beginning  
Witnessed his cousin murder his wife with a gun  
He moved to L.A. and he felt a calling  
The first time that he took a life was at age 24

Wasting no time, reached the point of no return  
If you're chosen, then you burn

Night Stalker, everyone's got to die  
He's gonna make them cry for their lives  
Night Stalker, taking them in the night  
Under Satanic might, the next one might be you

Night Stalker, everyone's got to die  
He's gonna make them cry for their lives  
Night Stalker, taking them in the night  
Under Satanic might, the next one might be you
