

# We Are Forever

Dream Evil

We are forever  
We are eternity  
We're strong together  
Through pain and agony

You broke the promise  
You said we would be free  
We did the labor  
We lived in misery

Blood on the windows  
Tears in the lake  
This innuendo  
Forced us to break  
Tired and wounded  
Blood on our hands  
We were forsaken  
In foreign lands

We stood beaten in the rain  
Now you won

We are forever  
We are eternity  
We're strong together  
Through pain and agony

We felt so broken  
You thought we couldn't see  
And then you forced us  
To do dirty deeds

The dark is upon us  
Reality wins  
Crushed under sorrow  
Scars on our skins  
The weight we were under  
Crushing our fate  
Lonely and broken  
We turned the stakes

We stood beaten in the rain  
Now you won

We are forever  
We are eternity  
We're strong together  
Through pain and agony
