

## Making Faces

Dream, Ivory

Talk all the words that you said you need to say  
Well, those were all the signs that told me to walk away  
Talk in your sleep, tell your secrets to me, and I'll promise t  
o keep them safe  
I'm reaching out to answers, hope they're coming to me so I'll  
carry it out this way

Let me take you all the way to town  
Keep in mind I'll never let you down  
Always stuck, let's focus on the now  
I'm staying, glad to always have your love around

Making faces late with you  
The way you always do the things you do  
Staying up late 'til we see the sun but we don't regret a thing  
It's the feeling that you get when you close your eyes and can'  
t tell if you're asleep

Talk all the words that you said you need to say  
Well, those were all the signs that told me to walk away  
Talk in your sleep, tell your secrets to me, and I'll promise t  
o keep them safe  
I'm reaching out to answers, hope they're coming to me so I'll  
carry it out this way
