Dream Sitch

You play on the piano  
I believe you  
From down the hall  
The first one you played  
Second one, maybe?  
Well I love them all

While you do it over and do it over  
Repetition gets to something new  
While you do it over and do it over  
My heart begins to learn how to

Have to begin at the beginning  
To know how much  
Funny how often it's always time  
To readjust

While you do it over and do it over  
Repetition gets to something new  
While you do it over and do it over  
My heart begins to learn how to
