

# Sideways

Dream Sitch

You can pass it to me  
I've been dying to try  
To climb the star in your eye  
To something so high about you

With nothing to lose  
And nowhere to leave  
Free as the sky  
With something so high about you

Winding all the reels around  
Sideways, sideways

Jump to get a foot on the ground  
Chase another note around  
Blowing sideways, sideways

Losing what ya never found  
But it's hard to keep a spiral down  
Hard to keep a spiral down

You can pass it to me  
I've been dying to change  
The words to apply  
There's something so high

With nowhere to look  
For nothing to see  
Free as goodbye  
Something so high about you

Winding all the reels around  
Sideways, sideways

Jump to get a foot on the ground  
Chase another note around  
Blowing sideways, sideways

Losing what ya never found  
But it's hard to keep a spiral down  
Hard to keep a spiral down  
Sideways, sideways  
Sideways  
Sideways  
Sideways

Jump to get a foot on the ground  
Chase another note around  
Blowing sideways, sideways

Losing what ya never found  
But it's hard to keep a spiral down  
Hard to keep a spiral down  
Hard to keep a spiral down  
Hard to keep a spiral down  
Hard to keep a spiral down
