

In This Hell

Dream State

Is it all for nothing?
Is it cause my head's not clear?
Tell me you feel something
Tell me is my heart still there?

Twisting my tongue
Laid on the floor
I'm choking on air
I've misplaced all my thoughts
I feel like I've drowned
And I've wound up on your shore
And I feel so exposed
You can see my core

Am I just losing myself
In this hell

Is it all for nothing?
Is it cause my head's not clear?
Tell me you feel something
Tell me is my heart still there?
I cannot sleep at night
From all this anxiety
No I can't sleep at night

And I feel frozen
I feel ice cold
I'm wide open
I keep picking at my bones
Have I gone insane?
Am I still the same?
Twisted heart and messed up brains
Someone pull the chain
Pull me out of this grave
Flush the toxins
Keep me awake

Am I just losing myself
In this hell

Is it all for nothing?
Is it cause my head's not clear?
Tell me you feel something
Tell me is my heart still there?
I cannot sleep at night
From all this anxiety
No I can't sleep at night

Cause I'm breathless
I'm beyond repair
I'm hopeless
It's all endless
Battle of affairs
It's always in my head
All of the responsibility
Clouded in negativity
It's so bleak

I've lost the feel
I don't know what is real

Is it all for nothing?
Is it cause my head's not clear?
Tell me you feel something
Tell me is my heart still there?
I cannot sleep at night
From all this anxiety
No I can't sleep at night

No I can't sleep at night
No I can't sleep at night
