

# New Waves

Dream State

Just a drop in the ocean  
Trapped in one thought  
Been through the motions  
Been here before  
Picked up the pieces that fell apart  
Rebuild and recreated every broken heart  
It's easy to lose all that inner faith  
When I see the cracks in the home I made  
I start to lose my focus  
I'm losing ground  
I get so high up  
But always get so down

I've worked too hard  
My head and  
My heart got me this far  
I'll wear these scars  
On my sleeves  
Real proud  
Like my broken heart

Cause all I want is another chance  
A new beginning  
I just want to make new waves  
And find a new way out

Sometimes I am weightless  
Just drifting  
Through this life unconscious  
A wanderer chasing a dream  
Walking the edges of reality  
Is it just me?

I don't need another bug in my brain  
To feel transiently okay  
I'm off all those prodigal old ways  
I found a new start  
On new waves

I've worked too hard  
My head  
And my heart got me this far  
I'll wear these scars  
On my sleeves  
Real proud  
Like my broken heart

Cause all I want is another chance  
A new beginning  
I just want to make new waves  
And find a new way out

I don't need another bug in my brain  
Just wanna feel myself again  
I'm off all those prodigal old ways  
I made a new start  
On new waves

Because I worked too hard  
You know I've come too far  
And I'll wear my scars  
Real proud just like my

Cause all I want is another chance  
A new beginning  
And I just want to make new waves  
And find a new way out

All I want is another chance  
A new day  
A new life  
I wanna get out  
And I just want to make new waves  
And find a new way out
