

## Torn Close

Dreamcar

Well, you, knew just what to do  
When I slipped for you  
Knelt like I'd marry you  
You said again, on two

Every tear brings me a little bit closer

Well, if you clean that mess we're through  
And if you mend that dress we're through  
No one can wear it like you do  
Every tear brings me a little bit closer

Yeah, I saw you kill a thousand lights  
As you passed them by you sighed  
"I didn't even try  
Now watch me when I try"

Every tear brings me a little bit closer

Well, if you clean that mess we're through  
And if you mend that dress we're through  
No one can wear it like you do  
Every tear brings me a little bit closer

Well, if you clean that mess we're through  
And if you change that dress we're through  
No one can wear me like you do  
Every tear brings me a little bit closer to you

Oh, I saw them drop, yeah, watched them die  
You said I didn't even try  
I'm torn a little bit closer

Every tear brings me a little bit closer

Well, if you clean that mess we're through  
And if you mend that dress we're through  
No one can wear it like you do  
Every tear brings me a little bit closer  
Every tear brings me a little bit closer  
Every tear brings me a little bit closer to you
