Dreamcatcher

Darling
Please call me with your voice
Softly tickle my ears and heart
Morning to night,
Holding you tight
Here, inside my mind
My eyes are only for you

Look up to the sky
So far, I can't say "Hi"
I'm still reaching for the memories
That are fading, fading

On the radio playing our favorite song
Say the things that I need
Wish I could hear it from you

Baby, please don't leave me
This night is long and lonely so
Put everything aside, hug me ana jwo

Baby, don't leave me
Only you can make me feel so alive
Take all of my love

Slowly coming winter with it snow
So, tightly, Let's hold our hands
Star in your eyes,
Sun in your smile
The way you look at me
It makes me hum and I call it love song

On the radio playing our favorite song
Show me what I need babe
Love me more, love me more woo

Baby, please don't leave me
This night is long and lonely so
Put everything aside, hug me ana jwo

Baby, don't leave me
Only you can make me feel so alive
Take all of my love

Sometimes under the moonlight
Looking for your shadow
Where are you?
In this fairytale, It's up to us how it ends
