Full moon

If we walked through time together
If we walked little by little together
Wherever we are, we can be together (you and me)

For the short while you were beside me
Your warmth still remains
I couldn't sleep all night

Come to me gently (oh oh)
I want to say to you
There are countless secrets of our own between us
(Come close to you)

The sky is filled with moonlight
In it is you and me
Stay like this like time has stopped

I will remember you
I will meet you again
I will draw you in my dreams every day
You and I, under the blue night sky
I promised love
Anytime
I will give you moonlight in this night sky
I want to fill this whole world with this light
Full moon

The moments when you and I were together
It is like I'm a star in the sky
Yeah, you will probably not know
This heart, you'll not understand
I want to get closer little by little

Say it to me in my ears (oh oh)
In your own voice
I cannot say many secrets when we are both together
(Come close to me)

Uh uh
Baby without you
You are my universe
Don't go too far from me, hold my hand tightly
Light my way more, more, more brightly

I will remember you
I will meet you again
I will draw you in my dreams every day
You and I, under the blue night sky
I promised love
Anytime
I will give you moonlight in this night sky
I want to fill this whole world with this light
Full moon

When can you
Understand my heart
Then we become one
Forever ah

Sleeping time
Say my name
Everytime, everywhere
Good night

The moonlight in the night sky
Even if you fall asleep deely
I won't let go of your hand

Please remember me
Please meet me again
I will draw in your dreams everyday
You and I, under the blue night sky
I promised love
Shine forever
Like a dream of my own
Filled with red moonlight
Full moon
