Come to me now, I want again

Midnight  
Come to me now  
Midnight  
Again today, I'm falling into you

I let you go again today  
But you'll come again  
Don't make me worry  
No, no, no  
Where is that flower  
That you gave to me? I'm so down  
I can't see it

Broken heart

I try to fill it up with you  
But everything disappears  
Even the memories you gave me last night

Stay with me  
(Hey) my eyes are slowly getting blurry  
(Hey) the night is growing deep  
Don't let me down  
Going to you

Midnight

Midnight, close to you  
I'm falling into you

Again you come and go  
Times with you pass so quickly  
It's time to goodbye  
(No, no, no)  
I can't stand it  
Without you, it's just me and I  
I can't see it

Broken heart  
I try to fill it up with you  
But everything disappears  
Even the memories you gave me last night

Stay with me  
(Hey) my eyes are slowly getting blurry  
(Hey) the night is growing deep  
Don't let me down  
Going to you

Midnight, close to you  
I'm falling into you  
Midnight, again today  
Come to me now, I want again
