Ooh ooh

Once again repeating with every day
When I wander in the dark
Why are you on the other side of the fog
Cowardly pretending not to know me

You just have to be by my side
A ray of expectation in my heart
Just you oh you
I thought that something was different (about you) no

The short moment making a wound
Indifference infecting right away
Even if you turn your back away
Don't run away from this moment

A trap that is tightening (around) me
A trap that cannot be avoided

All the people blame only me
This deal that cannot be get better
Coarse tears flowing
To the point where you can't even handle it

A way beyond measure, even if tolerating and enduring it again
Ripping it and even getting cut, messing up again
Woo why oh you
Trample on the quiet hope as well, I hate you

The short moment making a wound
Indifference infecting right away
Even if you turn your back away
Don't run away from this moment

A trap that is tightening (around) me
A trap that cannot be avoided

I can't see, even an inch in front of me
Never ending, being locked in here
A maze that is still as unknown as ever
Confined here, I wouldn't be able to know this trap

Why is everyone like that (inside my two eyes)
The best lie
Opportunity within countless of hours oh

My fingertips reaching for you
Freezing with the cold
If you had grabbed onto my hands, even just once
It will be different, even right now

(Please save me) a trap that is tightening (around) me
(Now save me) a trap that cannot be avoided

I can't see, even an inch in front of me
Never ending, being locked in here
A maze that is still as unknown as ever
Confined here, I wouldn't be able to know this trap

Ooh ooh
