Break up break up my dream

Deep in sleep, entering a lucid dream (lucid dream)  
Caught in a trap within the dream (a fake dream)  
Even if I am engulfed by the deep darkness of the night (uh woo)  
Even if the sun tries to swallow me (uh woo)

Piercing like a thorn from a branch  
I bloom like a desert flower  
I wake up from a dream like walking out of a maze

I am looking for the answer in this nightmare  
Please take my hand and lead me out of this dream  
What, what, what, what, now  
What, what, what, what, wake up  
What, what, what, what, already  
Break up, break up my dream

The mystery of the dream that I cannot escape from  
The message of my prayer that no one else can hear

Vanish like scattering grains of sand  
Break the doors open and escape  
I wake up from a dream like walking out of a maze

I am looking for the answer in this nightmare  
Please take my hand and lead me out of this dream  
What, what, what, what, now

What, what, what, what wake up  
What, what, what, what, ahead  
Break up, break up my dream

Tick tock tikita a floor that I cannot escape from  
Tip toe tikita a game of tag mirror  
Bang! please believe that even if this dream breaks, we are  
Just the two of us, wake up my dream

Because this is not a dream  
Even if the clouds envelop me  
You are the one I still keep seeing  
But, why can't I reach you?

I am looking for the answer in this nightmare  
Please take my hand and lead me out of this dream  
What, what, what, what, now  
What, what, what, what wake up  
What, what, what, what, already  
Break up, break up my dream
