~~~~~ my heart

00 00000 real

From somewhere, from somewhere  
I hear a sound  
I prick up my ears  
It was beautiful, beautiful  
I'm melting away gently  
I'm falling

I want you, come  
A piece that fits for me  
It was you who finally found it  
Someone here, quietly  
Hold me in your hands

Take me to wonderland  
Hush hush hush hush hush hush hush  
There, it's only us  
Hush hush hush hush hush hush hush

Oh it's strange, my body, my eyes, I'm possessed  
My breaths taking in this air  
My head is dizzy  
Newly changes, my heart  
Even if I pinch my cheek, real

A sky blue dress, yellow glowing hair  
A white rabbit and a cat  
A mystery beyond escape  
Strangely, I rely on your finger tips

A star that built up a fire in your heart  
Brighten the night that was getting dark  
I follow your trace  
Don't let go of my hands that hold you

And take me to wonderland  
Hush hush hush hush hush hush hush  
There, it's only us  
Hush hush hush hush hush hush hush

Oh it's strange, my body, my eyes, I'm possessed  
My breaths taking in this air  
My head is dizzy  
My heart is newly changed  
Real even if I pinch my cheek

Don't let go of my hand yet  
This moment, forever, continually, I just want you  
The times I was alone  
Only until here, please come yeah

Take me to wonderland  
Hush hush hush hush hush hush hush  
There, it's only us  
Hush hush hush hush hush hush hush

Oh it's strange, my body, my eyes, I'm possessed  
My breaths taking in this air  
My head is dizzy  
Newly changed, my heart  
Even if I pinch my cheek, real
